### PARTICIPATION SHEET

NO.	NAME	ROLE	RATE	REMARKS/COMMENTS
			1-100 POINTS	
1	Dasalla, Keith Gabriel Feliciano	UI/UX Designer, Documentation Specialist	100	Keith has done so great in making user-friendly interfaces as well as documenting this project. I have worked with him countless of times since we were freshmen and he performed perfect in all of them. Just absolute perfection. Job well done.
2	Fernandez, Alexander James Ian Jimenez	QA Tester, Front-End Developer	100	All I can say is that Aji always takes his role in every group project very seriously—especially this on this one. He was actually the person who had thought of our project title. So, job well done, too.
3	Labalan, Jerald Valdez	Project Manager, Front-End Developer	100	As the project manager, I think I have done enough if not everything to lead my group. And I can say that we are doing just fine. Our progress is going near full-circle.
4	Tan, Gerlyn Rama	Backend Developer	100	She also performs very well in her role as a backend developer. We have never experienced issues on the backend side of our project because she was the one that manages it. Gerlyn The Great.
5	Virtudez, Donna Pauline Forbile	Database Manager, QA Tester	100	Donna is also that one classmate you would always want to be grouped with. She made the ERD in like no time, and so we were able to start our development very soon. Not to mention she also has done majority of unit testing. Hands down!
